How it works

Getting a blood test couldn't be easier - take a finger-prick sample at home or choose to go to a partner clinic in our nationwide network and we will send you everything you need to collect your sample.

Step 1: Order Online

Select from over 1200 blood tests and order discreetly online or call us on 03450 600 600

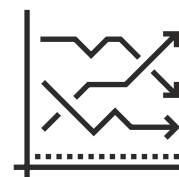

Step 2: Collect Sample

We send you a sample collection kit or refer you to one of our partner clinics to have a blood sample taken.

Step 3: Post Sample

Simply post your sample back to our fully accredited laboratory in the packaging provided.

Step 4: Get & Track Results

Get your results securely in mymedichecks.com and view in your own personal dashboard.

Phlebotomy options

Most of our tests can be completed using a finger-prick sample collection method. But we know that some people don't bleed as well as others! If you are one of those, or you have ordered a test which required a venous blood sample you will be given the following options at checkout. If you are phoning us with your order then our customer services team will help you select the most convenient option for you.

Finger-prick Sample

FREE

We will send you everything you need to take your finger-prick sample in the comfort of your own home.

Partner Clinic

£25

We will recommend one of our partner clinics based on your postcode for you to have your blood sample collected. Everything you need to make an appointment and have your blood sample taken will be provided by us.

London Laboratory

£25

You can choose to have your blood sample taken at our London laboratory. This is a walk-in service with no appointment needed. We will give you all the details you need to have your blood sample collected.

Home Visit

£POA

If required, we can arrange for you to have your blood sample taken at home by a qualified nurse or phlebotomist. We have a range of options available, just call us to make an appointment.

Essential Tests

Thyroid Stimulating Hormone (TSH)

£29

An entry-level test for thyroid function, which measures the amount of thyroid stimulating hormone (TSH) in the blood.

Tests included: TSH.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

Free T3

£29

Most thyroid hormones are bound to proteins - this blood test examines the level of free, or unbound, T3 (triiodothyronine), the active form of T3.

Tests included: FT3.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

T3

£29

A blood test to establish the level of T3 (triiodothyronine) - the active thyroid hormone which regulates metabolism in our cells.

Tests included: FT3.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

Reverse T3

£99

This blood test is for reverse T3 (rT3) an inactive form of triiodothyronine which can inhibit the action of the active form (T3) in the body's cells.

Tests included: rT3.

✓ 1 test included

🩸 Venous blood sample

🕒 14 day turnaround

Free T4

£29

T4 (thyroxine) is the main hormone produced by the thyroid gland. Most of it is bound to proteins and while bound cannot be converted into T3. This blood test measures levels of unbound or free T4.

Tests included: FT4.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

Thyroxine (T4)

£29

Thyroxine (T4) is the main hormone produced by the thyroid gland. This blood test measures levels of T4 to help in the diagnosis of thyroid disease.

Tests included: T4.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

Essential Tests

Thyroid Antibodies

£69

This thyroid blood test is used to diagnose an autoimmune thyroid disease in cases where thyroid hormones are outside the normal ranges.

Tests included: TGAb, TPOAb.

✔ 2 tests included 🩸 Finger-prick blood sample ⌚ 4 day turnaround

TSH Receptor Stimulating Antibodies

£79

A thyroid antibody test that is often used to investigate hyperthyroidism (Graves' Disease) or to monitor the effectiveness of anti-thyroid treatment.

Tests included: TSH receptor antibodies.

✔ 1 test included 🩸 Venous blood sample ⌚ 6 day turnaround

Thyroid Profiles

Thyroid Check

£29

A popular thyroid blood test which examines levels of TSH and free thyroxine (FT4) to help in the diagnosis of a thyroid disorder.

Tests included: TSH, FT4.

✔ 2 tests included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Thyroid Monitoring

£39

An excellent profile to investigate thyroid function. Includes TSH as well as key thyroid hormones FT4 and FT3.

Tests included: TSH, FT4, FT3.

✔ 3 tests included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Thyroid Check Plus

BEST SELLER

£69

Our best-selling thyroid blood test examining levels of TSH, T4, FT4 and FT3 as well as thyroid antibodies for a comprehensive picture of thyroid health.

Tests included: TSH, FT4, T4, FT3, TGAb, TPOAb.

✔ 6 tests included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Thyroid Profiles

Thyroid Check Ultra

£79

This profile includes everything in our popular Thyroid Check Plus as well as ferritin, folate, vitamin B12 and CRP-hs.

Tests included: TSH, FT4, T4, FT3, TGAb, TPOAb, B12, Folate, CRP-hs, Ferritin.

✔ 10 tests included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Thyroid Check UltraVit

£99

This profile contains all the tests included in the Thyroid Check Ultra (full thyroid profile with ferritin, folate, vitamin B12 and CRP-hs) as well as a vitamin D test.

Tests included: TSH, FT4, T4, FT3, TGAb, TPOAb, B12, Folate, Vitamin D, CRP-hs, Ferritin.

✔ 11 tests included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Thyroid Check UltraVit rT3

£169

Our most comprehensive thyroid profile taking a complete look at thyroid function, ferritin, folate, vitamin B12, vitamin D and reverse T3.

Tests included: TSH, FT4, T4, FT3, rT3, RT3 ratio, TGAb, TPOAb, B12, Folate, Vitamin D, CRP-hs, Ferritin.

✔ 13 tests included 🩸 Venous blood sample ⌚ 14 day turnaround

Thyroid Check Plus rT3

£159

This profile includes everything in our popular Thyroid Check Plus (TSH, T4, FT4, FT3 and thyroid antibodies) as well as reverse T3.

Tests included: TSH, FT4, T4, FT3, rT3, RT3 ratio, TGAb, TPOAb.

✔ 8 tests included 🩸 Venous blood sample ⌚ 14 day turnaround

Thyroid Monitoring rT3

£129

Everything in Thyroid Monitoring (TSH, FT4, FT3) plus reverse T3 (rT3).

Tests included: TSH, FT4, FT3, rT3, RT3 ratio.

✔ 5 tests included 🩸 Venous blood sample ⌚ 14 day turnaround

Related Tests

Cortisol Blood Test

BEST SELLER

£39

Cortisol blood tests are used to assess stress levels and help diagnose Cushing syndrome and Addison's disease, which are adrenal disorders.

Tests included: Cortisol.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

Vitamin B12 (Active) Folate & Ferritin

£69

This blood test measures active vitamin B12 (holotranscobalamin), folate (folic acid) and ferritin.

Tests included: Active B12, Folate, Ferritin.

✓ 3 tests included

🩸 Finger-prick blood sample

🕒 3 day turnaround

Iron Status Check

BEST SELLER

£39

This test measures the amount of iron in the blood to help identify iron deficiency anaemia or iron overload syndrome.

Tests included: Iron, T.I.B.C., Transferrin, Ferritin.

✓ 4 tests included

🩸 Finger-prick blood sample

🕒 3 day turnaround

Selenium (Blood)

£69

A test to measure the amount of selenium in the blood.

Tests included: Selenium - Serum.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 6 day turnaround

Vitamin D (25 OH)

BEST SELLER

£39

A blood test for Vitamin D, which is vital for the absorption of calcium and phosphate but also for protection against many diseases including cancer and immune disorders.

Tests included: Vitamin D.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 2 day turnaround

Ferritin

BEST SELLER

£39

A blood test that measures the amount of iron stored in the body used to diagnose anaemia or iron-overload.

Tests included: Ferritin.

✓ 1 test included

🩸 Finger-prick blood sample

🕒 1 day turnaround

Related Tests

Magnesium (blood)

£29

A blood test to measure magnesium levels in the blood. Magnesium is a mineral used by every organ in the body and is especially important for bones and muscles.

Tests included: Magnesium.

✓ 1 test included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Iodine

£79

Iodine is a trace element that is essential for normal thyroid function. This test measures the level of iodine in the serum.

Tests included: Iodine - Serum.

✓ 1 test included 🩸 Finger-prick blood sample ⌚ 7 day turnaround

Vitamin B12 (Active)

BEST SELLER

£39

A blood test to measure levels of active Vitamin B12 (holotranscobalamin), essential for healthy nerves, blood cells and DNA.

Tests included: Active B12.

✓ 1 test included 🩸 Finger-prick blood sample ⌚ 1 day turnaround

Zinc (Blood)

BEST SELLER

£39

A test to measure the amount of zinc in the blood.

Tests included: Zinc.

✓ 1 test included 🩸 Finger-prick blood sample ⌚ 4 day turnaround

Calcium Blood Test

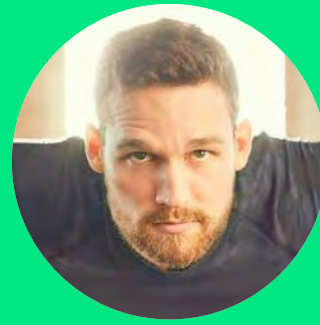

£29

A simple blood test to check that levels of calcium in the body are normal.

Tests included: Calcium, Corrected Calcium, Albumin.

✓ 3 tests included 🩸 Finger-prick blood sample ⌚ 1 day turnaround
