

Phlebotomy Services

where the specialists come to you

Phlebotomy Services in the South of England Covers Hampshire, Wiltshire, Berkshire and more!

We are registered members with the [National Association of Phlebotomists](#) and are fully insured with [Therapist Insurance](#) for your peace of mind.

We are highly-skilled phlebotomists, with many years of experience, able to offer a phlebotomy service to a range of industries including **scientific, technology, clinical, transfusion, nutritional**.

We also offer a service to private individuals in the comfort of your own home at a cost of £50 plus travel costs.

Private Patient Service

The procedure for arranging a private blood test with us is as follows:

1. Complete the laboratory form (Private blood requests usually have packaging with forms, instructions and equipment enclosed).
2. Contact us to make an appointment on **01264 351154** or **07837 024988** or you can email us: janeyscottjones@gmail.com
3. We will then come and take the blood sample and prepare this for posting.

Useful Tips:

- If you are cold your veins will be more difficult to find. Making sure you keep warm prior to your blood test will help to speed up the procedure.
- A fasting blood test means nothing to eat or drink, other than water, for 12 hours prior to the test and no alcohol for 24 hours before the test, unless advised otherwise by your doctor.

Our Areas

Our main area covers the south of England, including **Hampshire, Wiltshire and Berkshire** - however we will travel further distances with negotiation and travel costs [in accordance with our calculator](#).
